North Yuba Water District

Re: SFWPA Facilities Tour

Dear NYWD Board Directors and Management:

South Feather Water and Power Agency respectfully invites you to participate in an Agency Operations Facilities Tour. As a key partner with South Feather and neighboring district water provider we would enjoy the opportunity to have you tour agency operations.

Locations included in the tour would be:

- Kelly Ridge Powerhouse
- Miners Ranch Treatment Plant
- Sly Creek Powerhouse, Dam and Recreation Facilities
- Little Grass Valley Dam, Spillway and Recreation Facilities
- Woodleaf Powerhouse
- Forbestown Powerhouse

Historically, SFWPA invites members of the community on tours and the feedback has been consistently positive. This year, we would like to focus on industry partners. For example, the agency regularly meets and discusses a wide range of topics (COVID-19 Impacts, Security, Legislature, etc.) with TWSD, PID, Cal Water, Del Oro and anyone else interested in participating.

This summer, we are inviting you to come view South Feather operations and have lunch with some of our employees and staff.

The proposed facilities tour date is Thursday, September 3, 2020 assuming we have five or more participants. (Some years we have as many as 20 participate.)

Please RSVP at PublicRelations@southfeather.com if you are able to attend.

Sincerely,
South Feather Water and Power Agency
